SUNNYSIDE IRISES

I am offering herewith one hundred and six choice and rare Irises, the best of the old varieties and the finest of the newer things. It is not as extensive a list as some growers catalog, but for quality and range of colors, and for all purposes required of this lovely flower I believe it will be right up in front with some of the more elaborate lists of 300 or more varieties, altogether too many for the average purchaser to select from, I'll say.

I am buying every year the best of the new things which will be grown and tested in my gardens before being offered to my customers. The older varieties of real merit will continue to be listed in my catalog until, at least, varieties of superior merit are within reach of the ordinary pocket-book.

The numerals preceding a variety is the rating of the American Iris Society, 100 being the standard of perfection.

READ BEFORE YOU SEND IN YOUR ORDER

My stock in some varieties is not large, so to make sure that you will get all the varieties you want send your order early with 25% of the amount, and the balance at the time of shipment, and I will hold them for you.

All orders must be accompanied with cash, but if to be sent C. O. D. remit 25% when ordering.

DISCOUNT. A discount of 10% will be allowed on orders amounting to \$25.00 or more.

SUBSTITUTES. Except where noted I will not substitute unless directed to do so. It is a good plan to make a second choice in case some varieties are sold out, especially late orders.

POSTAGE. All Iris sent prepaid, and when order amounts to \$5.00 or more, insured at my expense.

SUNNYSIDE GARDENS

are located in Natick village, at the end of Harvard street extension. I am always home Sundays and Wednesdays, and visitors are always welcome during the blooming season, April 15th to June 15th. Come and see the new ones—"Grace Sturtevant," "Dolly Madison," "Vesper Gold," "Ariel," "Midgard," "Gabriel," "Alabaster," Andrew's new white; "Ethereal Charm," "Evadne," "Mrs. Marian Cran," "Prairie Gold," "Proteus" said to be the largest flowered Iris in the world; "Rosado" and "W. R. Dykes" the new \$100.00 pure yellow Iris from England.

Irises will be shipped from late in June until the 15th of September. The month of August is considered by many the best time to plant Irises. At this time the rhizomes are of good size and vigorous.

Join The American Iris Society—Every new member receives the book "Irises For Beginners" which is alone worth the cost of membership, and you also receive four bulletins a year of interesting Iris news and information. Send dues \$3.00 to J. B. Wallace, Secretary, 129 Church St., New Haven, Conn.

SUNNYSIDE SELECT BEARDED IRIS

Each 3 for

One each of above 27 varieties,
value \$6.55 for \$ 5.00

Three each of above 27 varieties,
value \$19.65 for 13.00

In case any of above are sold out, if the whole collection is ordered, I will replace with something equally as good or better.

SIBERIAN IRISES

Siberian Irises require a moister soil than the Tall Bearded. They are very easy to grow and are fine for cutting. They grow tall and have stiff slender stems. Very free flowering. Have the soil rich but do not use lime or bone meal.

EMPEROR. Deep violet blue.Each .50

KINGFISHER. Rich purple-blue standards.
Falls intense dark blue.Each 2.50

PERRY'S BLUE. Wonderful shade of sky-blue.
Dozen \$4.00.Each .40

SNOW QUEEN. Snow white with rich golden
blotch. Dozen \$2.00Each .25

TRUE BLUE. Similar to Perry's but not as
tall. Dozen \$2.00Each .25
